Campus: **Bowie**

Grade(s): **Kindergarten 1st 2nd 3rd 4th** Subject(s): **All Subjects**

of students: 543 # of teachers: 42

Abstract: The grant, Creating a Servant-Leader Culture, would provide with leadership curriculum that will guide direct lessons for all students on proactivity, planning, prioritizing, celebrating the success of others, listening, collaboration, balance, and developing one's personal talents and voice. By using the curriculum, The Leader in Me and The Seven Habits of Happy Kids, our administration and teachers will focus on and teach students how to implement a different leadership characteristic each month. In addition to this curriculum, each grade level will put their knowledge into practice by planning and participating in a service project.

2017 Fall Innovative Teaching Grant #2

Grant Title: **Tuesday Book Club** Amount Requested: **\$1,325.54**

Author(s): **Tammy Casaday** Campus: **Carroll** Grade(s): **3rd**

Subject(s): **ELAR** # of students: 20 # of teachers: 5

Abstract: I would like to start a Tuesday Book Club for parents and students to come together for one hour each week and just enjoy reading. I believe if we can get our parents involved in an enjoyable social opportunity to read with their children, that we can promote family literacy. I would like our parents to have the opportunity to be a part of the school and to become part of a learning community. I would like to have many different types of books for us to read and talk about. I would like to have some Spanish versions for our Hispanic parents. The students would be reading in English. We would all have a time to share and talk about the novels.

Grant Title: **Rockin' Rekenreks in First Grade**

Amount Requested: **\$609.00**

Author(s): **Marisela Saucedo, Niclole Horn, Janice Fluharty, Amanda Jennings**

Campus: **Navarro** Grade(s): **1st** Subject(s): **Math**

of students: 110 # of teachers: 5

Abstract: First grade team at Navarro Elementary would like to use Rekenreks to teach students number reasoning skills and compute mathematical problems using number relationships in whole group and small group instructional settings. Students will begin to understand the base ten system and use mental math strategies to calculate addition and subtraction strategies. This purchase will be used during core math instruction and intervention time to help our mathematicians build number sense and love math. This tool will give students a powerful manipulative to help them make a mental image of numbers. The class set will be used by teachers to introduce concepts to anchor the number five and ten for adding and subtracting.

2017 Fall Innovative Teaching Grant #5

Grant Title: **Evolving Scholastic Success - From Silks to Sabers**

Amount Requested: **\$2,000.00** Author: **Bre Osbourn**

Campuses: **CMS & CHS** Grade(s): **7th-12th**

Subject(s): **Band/Color Guard** # of students: 175 # of teachers: 5

Abstract: Our color guard and winter guard program has grown and become very successful. We have advanced into the most competitive category in the state of Texas: the Scholastic Division. While being placed in this division is a major honor it also carries a much more demanding base of skills and production creation in order to be successful in competition. We currently have one part time guard tech, for five hours a week, who has to cover all areas of the ensemble. Now that we have advanced into a higher division we must expand our equipment and body movement base. This requires upper-level technique in silk work (flags), weapon work (rifle and saber) and body movement (dance and use of more floor space).

If we are able to accommodate having an instructor for more time each week and bring in another instructor to help we will be able to divide up the ensemble units, flag block and weapons block to give each different group a wider skill set and more attention and time to clean and prepare for performance.

\$20.00 per hour/5 hour per week for an instructor \$2,000.00
(100 hours total to be divided between two instructors)

2017 Fall Innovative Teaching Grant #6

Grant Title: **Setting Classroom Instruction on Fire with Kindle Fires**

Amount Requested: **\$1,500** Author: **Tiffany Farmer** Campus: **CIS**

Grade(s): **5th** Subject(s): **Math, Science, Language Arts**

of students: 70 # of teachers: 3

Abstract: It's not a surprise that classroom instruction is becoming more technologically centered. Many schools across the country are now at a 1:1 student/technology ratio. Having a class set of kindle fire tablets in my classroom would allow my instruction to evolve up to date research and newest teaching practices. The students we have in our classrooms today are part of a technological generation. Technology is what they know and who they are. It only make sense that adding these beloved devices to classroom instruction would increase engagement and achievement in the classroom.

Grant Title: **Enhancing ESL Student Reading Skills**

Amount Requested: **\$815.00** Author: **Holly Scoggins**

Campus: **CMS**

Grade(s): **5th** Subject(s): **English Language Art and Reading**

of students: 163 # of teachers: 8

Abstract: 36% of the students on our campus are Limited English Proficient. The materials provided through this grant will create new, unique reading opportunities for ESL students and their families. Enhancing ESL Student Reading Skills will assist in accomplishing this goal. This project seeks to broaden learning past the classroom by providing 5th grade ELAR teachers multiple copies of Spanish editions novels which are read in class. These are to be taken home by ESL students so both students and their families have greater access to Spanish edition novels, enabling both parent and student to participate in the experience at home. Novels were identified by the Scope and Sequence developed by the English department for the current year.

Grant Title: **Building STEAM in the Library**

Amount Requested: **\$ 2,279.66**

Author: **Heather McCutchen** Campus: **CIS** Grade(s): **5th & 6th**

Subject(s): **Science, Technology, Mathematics, ELA**

of students: 907 # of teachers: 60

Abstract: "Every child has the right to invent, tinker, create, innovate, make, and do."
--Laura Fleming, Library Media Specialist

This grant would help to provide students with the opportunity to learn, build, and create in a hands-on way. Students learn best by exploring and manipulating real objects. The STEAM (Science, Technology, Engineering, Art, and Mathematics) career fields are growing and by giving students the opportunity to explore these disciplines early in life we excite and prepare them for careers in these fields. The library will be implementing Makerspace lessons as a part of the library curriculum. The students will participate in STEAM based challenges as well as exploring their own creativity using a variety of materials.
